

SPEED 2 - SNORKELING FIN

- Blade material:** Techno polymer
- Shoe material:** Thermoplastic rubber
- Full Foot:** Type of fin suitable for snorkeling in temperate waters.
- Stabilizers:** The stabilizers on the blade stabilize the stroke, reducing slicing and power loss to a minimum.
- Water channels:** The fin channels were designed to guarantee the best possible thrust without having to exert excessive force.
- No-slip rear:** The no-slip anatomic heelpiece positioned under the shoe allows good stability and maximum grip on any surface.
